Attention Year 12 students

\$5000 Aerospace Engineering Scholarships

The Playford Trust and the Andy Thomas Space Foundation – together with the University of Adelaide and UniSA – are offering **eight scholarships for high-achieving school leavers** hoping to begin their pathway to an engineering degree, majoring in aerospace, in 2023.

Each successful student will receive \$5000 to support the first year of their studies at either of the universities.

“The Australian space industry is experiencing unprecedented growth, fuelled by substantial public and private investment.

Aerospace engineers design and launch aircraft and equipment for the exploration of our solar system and beyond – and their career prospects are almost as endless.”

- Nicola Sasanelli AM, CEO, Andy Thomas Space Foundation.

The sponsoring partners are keen to support indigenous Australians, female students and those from regional and rural areas. Preference will be given to students who display leadership potential.

Applications open 13 October 2022 and close Monday 19 December.
